## ABOUT ME

Passionate about transitioning into a tech career, I've actively pursued diverse courses and freelance projects in website development while working as a Frontend Developer. With expertise in JavaScript, React, and cross-browser layouts, I've contributed to various projects, including websites for businesses and personal initiatives. My educational background in Information Systems and ongoing professional development underscore my commitment to this field. My long-term goal is to progress into a senior developer or team lead role.

## WORK EXPERIENCE

Frontend Developer 2018 - Present

### Freelance | Kyiv, Munich

I have been actively pursuing a career change through dedicated study at courses and trainings while concurrently working on freelance website development projects. During this period:

- developed websites and helped in their publication in internet;
- developed a website for a business coach based on WordPress;
- provide hosting and back-end support for the online store [Relsa](#);
- made several projects for my own needs, I constantly practice layout from Figma-models.

Tech stack: React, Axios, Node.js/Express.js, MySQL, JavaScript, TypeScript, HTML/CSS/SASS, Figma

Senior Officer 1998 - 2015

### Head Department of the Ministry of Internal Affairs of Ukraine in Kyiv

- conducted inspections of private security firms;
- proposed, developed and implemented a "licensing" database (this database is still used by the police today);
- analyzed the information obtained during the inspections and entered all data into the database;
- managed and administered a local computer network.

Tech stack: Borland Delphi, BDE, MySQL.

## PROFESSIONAL DEVELOPMENT

- September-December 2023: Frontend-course (React) in ReDI School;
